Polo Tecnologico di Pordenone is a Technology Park located in the province of Pordenone, one of 15 most industrialized provinces of Italy. Since its very beginning in 2002, Polo Tecnologico di Pordenone has been dealing with technology transfer, promoting the dialogue between enterprises, institutions and the regional research system to support company competitiveness and to stimulate the growth of enterprises with high potential development. Through its network of expertise, Polo encompasses a broad range of disciplines and is able to provide different services, from those aimed at favoring the adoption of technology to intellectual property support services.

Polo Tecnologico is an incubator of potential entrepreneurs and therefore of business ideas and provides tools, skills and resources to assess the technological feasibility, commercial and economic, but above all is an incubator of innovative enterprises that offer services and support for project management, for development of technology studies for the improvement of products (reducing time and costs) for the identification of financing instruments and more.
