The **Agency of Sustainable Development and Eurointegration - Ecoregions /ASDE/** is a NGO for public purposes. ASDE already 15 years works in partnership with the state administration, municipalities, university and research centers, business and civil society organizations for:

- implementation of the priorities of the AGENDA 21 of the UN
- application of the principals for sustainable development, environment protection, energy efficiency and support to the innovation and top eco friendly technologies
- support to the Eurointegration process at local and regional level, especially concerning the development of the local operative capacity
- strengthening the civil society in Bulgaria
- support to the development of knowledge and innovation based society

**ASDE** is a member of two European networks – URBAN-NET (NEXUS) and ERACOBUILD, founder and member of the Bulgarian Cluster on Aerospace Research and Technology, one of the initiators of the Bulgarian Information Office on Earth Observation – GMES for development of a Regional Unit/Center for Integrated Risk and Security Management for South East Europe and member of Innovation and Environmental Technologies, Green Building and Renewable Energy Cluster.
